

A Milano il punto sullo Smart Building

Una fiera dedicata all'edificio in rete, ovvero alle nuove tecniche di connettività diffusa per la domotica, la sicurezza e l'efficientamento energetico del costruito e la sua interazione con la smart city. È la "Smart Building Expo" (Milano 13/15 novembre, <https://smartbuildingexpo.it>).

The screenshot shows a portion of a news article from 'L'Espresso' dated 08/11/2019. The main headline is 'A Milano il punto sullo Smart Building'. The article discusses the Smart Building Expo, a trade fair dedicated to smart buildings, smart cities, and smart infrastructure. It mentions the event's dates (November 13-15) and website (<https://smartbuildingexpo.it>). The article also touches upon the integration of smart buildings with smart cities and the role of smart infrastructure in enhancing urban efficiency and sustainability. The text is partially obscured by a grid overlay, but the key information about the expo is visible.
